In English:

The engine "Quartz" is a product news generation of workshops ANTÓN. Of simple design and use, this engine is particularly advised for initiation with the propulsion vapor. It is a piston valve engine with rotary reverser of walk, which allows walk avant/arrière, the stop and the idle with only one servo of radio order. This engine, in its horizontal version, is particularly adapted to the propulsion of paddle boats (side or back). The installation of the engine will be done with a reduction of a ratio from 6 to 8 (cratée belt or pinion). This engine will be used in boats of 5à 10kgrs, with wheels of Ø100 to 150 mm. Model New QUARTZ! Also exist in kit ready with monterCaracteristic horizontal engine Course: 8 mm Boring: 9 mm Cylindrée/tour: 2 Cm3 Pressure of use: 1,5 to 3 bars Weight of the engine: 470 grs
